

Faces of Wizbots

Welcome to Wizbots! We'd love to introduce you to the faces in front and behind the scenes who are here to mentor and support you.

Key People:

Joshua Musial, Program Director

In addition to being one of our very senior Mentors, Joshua is also our Program Director. You can ask him absolutely anything that pertains to how Labs best run, and he is your go-to man for anything related to equipment. Something breaks? Contact Joshua ASAP! He's very reasonable, if you are. Not sure how to handle something in the curriculum or a Lab situation? Contact Joshua.

Roxie Edwards, Operations Director

Roxie manages everything that has to do with staffing, scheduling, and location logistics. Outside of the Labs, you will likely work with Roxie the most. She is our "Rock" and the one you can always turn to. An issue with the facility (no toilet paper, trash not getting picked up, etc.) - call Roxie! Woke up sick and can't get to Lab - call Roxie ASAP! Anything logistical - Roxie is your woman.

Kenya Sancristobal, Customer Happiness Agent

Kenya is our Customer Happiness Agent who expertly works with our customers (i.e. the parents) dealing with any questions or issues they may have. If a parent has a registration question or camp issue, send them to Kenya. If a camper is causing issues in the Lab, Kenya is also there to support you and be a go-between with the parents, if needed. Call on her for help! Kenya also collates our customer feedback and will relay the good, the bad, and the rooms-for-improvement each week.

Lead Mentors:

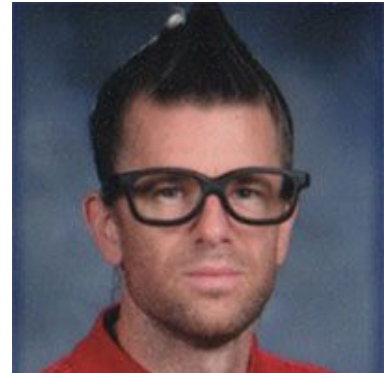

Our Inventor Mentors are your day-to-day managers at camp. Look to yours for direction and guidance, and please make sure they are aware of any camper issues that may arise as they are ultimately responsible for everything that happens at camp.

Alex Shimota

Elizabeth Lohse

Joshua Musial

Joyce Saltzherr

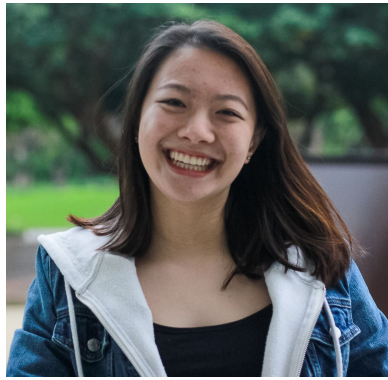

Miranda Ashton

Robin Signorelli

Ryan Laurenzano

Sammi Owang

If you'd like to learn more about your mentors, visit:

Assistants:

We have around **33 Assistants** this summer, and we hope you will have fun working within your teams. Get to know each other. Running Wizbots Robotics & Coding Camps is a team sport. Please remain professional at all times, but have fun!

Leaders-in-Training:

We have around **12 Leaders-in-Training** this summer - welcome! Our Mentors and Assistants are here to help guide you and get the most out of your learning experience. In turn, we hope you'll have a great time sharing your experience and knowledge with our campers!

Other People:

Conor McGann, Founder

Conor is Wizbots' Founder, and thus, ultimately the 'big boss.' You will meet him on training day, and hopefully you will come away excited and inspired! He is very behind the scenes, but he is quietly reading all the customer feedback that comes in and dances for joy when it's great.

Lisa McGann, Executive Director

Lisa cares about everything that goes on at Wizbots and helps out in a variety of capacities. She especially cares about Wizbots' people and program being top-notch such that customers have only great experiences with us. She is also quiet behind the scenes, but you could hear from her on occasion.
